

Abiona Centre (“the Centre”) is an award-winning, accredited Children’s Mental Health Centre that is a multi-service, non-profit, unionized, community agency located in the east end of Toronto. The Centre is committed to nurturing empowerment, independence and growth for young pregnant and parenting women, children and families in a non-judgmental, inclusive environment by providing a residential care and treatment program; supportive transitional housing; on-site high school program, community housing support and referral services; and maternal infant mental health programs and services. We do this by working collaboratively as a multi-disciplinary team with community partners to provide holistic programs and support that respond to mental health, education and transitional needs. The Centre also operates an EarlyON Child and Family Centre and an Early Learning Centre. All the programs and services are open to families, young women and their children living in the broader community.

Project Ujima (the “Project”) is an initiative of the Ontario Association of Young Parents Agencies (“OAYPA”) that is comprised of over twenty agencies throughout Ontario that provide programs and services to vulnerable young parents and their children. This initiative will plan and implement 9 Early Childhood Development Hubs throughout Ontario.

The Program Coordinator, Early Literacy Specialist supports early literacy and numeracy programming for young parents and their children 0-6 years old. The Program Coordinator will provide individual or group interventions, workshops or consultations to young parents, caregivers and internal programs. The Program Coordinator identifies literacy, communications, social and emotional child development issues through early and routine developmental screening with Ages and Stages Questionnaires (ASQ) and proactive Early Literacy supports. The Program Coordinator develops individualized plan for children with identified issues, provides strategies for young parents at home, facilitates early literacy programming, makes referrals for speech and language services, healthcare providers and other developmental early intervention supports, and works closely with Early Abilities partners. The Program Coordinator will work with the service partners to facilitate the Plan of Care and to determine their understanding of infant, and early childhood and adolescent mental health integrating the importance of a non-judgemental, youth-focussed, trauma-informed approach and work with healthcare leaders to determine gaps in the model of care.
