

**Abiona Centre (“the Centre”)** is an award-winning, accredited Children’s Mental Health Centre that is a multi-service, non-profit, unionized, community agency located in the east end of Toronto. The Centre is committed to nurturing empowerment, independence and growth for young pregnant and parenting women, children and families in a non-judgmental, inclusive environment by providing a residential care and treatment program; supportive transitional housing; on-site high school program, community housing support and referral services; and maternal infant mental health programs and services. We do this by working collaboratively as a multi-disciplinary team with community partners to provide holistic programs and support that respond to mental health, education and transitional needs. The Centre also operates an EarlyON Child and Family Centre and an Early Learning Centre. All the programs and services are open to families, young women and their children living in the broader community.

The Intensive Family Support Worker (IFSW) in the Live-In Treatment Program contributes to the Centre's mission, vision and values and embeds client-centred infant and early childhood mental health model in its service delivery.

Working collaboratively with a multidisciplinary team, the IFSW builds therapeutic relationships with pregnant and parenting adolescents, focusing on developing comprehensive care plans, maintaining accurate case files, facilitating care pathways, connecting clients to resources, and conducting holistic case management to achieve program objectives. The IFSW works collaboratively with other Centre staff to ensure continual and holistic treatment.
