

Abiona Centre For Infant & Early Mental Health (the “Centre”), is a client-centered organization focusing on infant and early childhood mental health. We support pregnant and parenting young mothers aged 13-29, along with their babies who reside at the Centre or in the community. As an accredited Children’s Mental Health Centre, we are the largest Young Parent Infant Centre in the province.

Our commitment is to create a better future for vulnerable pregnant and parenting young mothers and their children 0-6. Our infant and early childhood mental health programs give our clients the tools they need to build secure relationships with their babies, cope with life’s adversities, find help when needed and succeed in life. We offer a live-in treatment program, transitional housing, on-site high school programs, community housing support, housing and community support referral services, and maternal-infant mental health programs. Collaborating with community partners, our multi-disciplinary team provides wraparound programs addressing mental health, education, life skills, and transitional needs. The Centre also operates an EarlyON Child and Family Centre, along with two Early Learning Centres open to families, young women, and their children in the community.

Our vision is a world where families led by young women have the emotional and physical supports to realize their full potential.

The Family Support Worker, Night (FSW, N), provides client supervision to clients in the Live In Treatment and Transitional Housing Programs, with specific attention to life-skills training and preparation for independent living. The FSW, N works collaboratively with other Centre staff to ensure continual and holistic treatment. The FSW, N may be assigned to the Live In Treatment or Transitional Housing programs, and makes decision in consultation with their supervisor.
